The Lane County Prevention Program

helps educate, engage, & assist Lane County communities to prevent risky behaviors through strategic community health promotion initiatives & evidence-based prevention strategies.

How We Can Help

- Community coalition support
- Support of evidence-based prevention efforts, including parenting programs
- Presentations & trainings
- Educational materials & resource library
- ...And more

- Underage drinking prevention
- Problem gambling prevention
- Suicide prevention
- Mental health promotion
- Healthy pregnancy, healthy babies
- Healthy brain development
- Parenting

Community Health Promotion

We develop & support community partnerships and community mobilization efforts to address prevention of problem behaviors and increase protection at the local level. We engage the community, examine data & policy opportunities to shape county prevention & health promotion practices & priorities.

Learning Institute

Through the Learning Institute, we provide educational opportunities for community members & partners by offering regularly scheduled trainings, resources, & technical assistance.
